

PC100

Heavy forward plate petrol or diesel

PACLITE vibratory plates offer functionality and performance at a value price. Compact design allows for compaction of mixed soils in the narrowest of spaces - even in extremely narrow trenches. Ideal for curbs, gutters, around tanks, forms, columns, footings, guard railings, drainage ditches, gas and sewer works and building construction.

These plates are optimally suited for a variety of compaction applications thanks to their high speed of advance and simple manoeuvrability.

Two types of engines available: gasoline and diesel.

Features and benefits

- Newly designed "low-vibration" guide handle greatly improves operator comfort and minimizes operator fatigue.
- Completely enclosed belt protected by a lightweight belt guard for reduced wear and minimal service.
- Ergonomically designed lifting handles make loading and unloading from transport vehicles easier for the operator.
- Durable Shock mounts on engine console dampen vibrations thereby reducing wear on the components.
- Devibrated handle with 'cup design' to reduce hand/arm vibration.
- Transport wheels and water kit included.
- Throttle mounted on the operating handle.

Code (CE)	PC100H	PC100DH
Model	PC100 Honda	PC100Hatz
Operating mass (kg)	96	125
Centrifugal force (kN)	15	15
Plate width (mm)	500	500
Engine brand	Honda GX160	Hatz 1B20
Power hp (kW)	5,5 (4,1)	4,7 (3,46)
Water tank (L)	13	13
Speed (m/min)	25	26
Amplitude (mm)	0,95	0,9
Frequency (Hz)	95	90
Sound pressure level dB (A)	91	101
Vibrations*/ (m/s ²)	3,94	3,94

* Minimum vibration levels measured to EN500-4

PAVING PAD OPTION	
Code	PPV-PAD100

New low hand/arm vibration
